## FIRST ANNOUNCEMENT

# 7<sup>th</sup> International Symposium on NDT in Aerospace

16 – 18 November 2015 in Bremen, Germany

The symposium will combine and bring together the experience of industrial researchers with the ideas and the creativity of scientists to enable a fruitful dialogue for further improvement of NDT in Aerospace!

- NDT Methods like Ultrasound, X-ray, Thermal Imaging, Laser Based and Optical Surface Inspection etc.
- Component Inspection
- Data Evaluation and Image Processing
- Production Integrated NDT&E
- Mobile NDT&E for Maintenance, Repair and Overhaul
- Structural Health Monitoring
- Material Characterisation
- NDT System Design
- Damage Tolerance
- Ageing Aircraft

### Abstract submissions until 30 April 2015

- associated with:
- a visit of the AEROSPACE TESTING ZONE within the Aerospace Electrical Systems Expo Europe, 17 – 19 November 2015 in Bremen
  - excursions to aviation companies (e.g. Airbus)

A vendor exhibition will be conducted to complement the technical presentations.  
Information please find on the website.
